My Journey…. in CSC: VLE Musta Fizur Islam, Bamundongra village, Assam

“I belong to a very usual poor Indian family in Bamundongra village, Barpeta district in Assam. Since my childhood, I have been witnessing numerous instances where citizens of rural locations do not get proper guidance or information when they face problems related to rights and laws. When it comes to legal matters lawyers, too extract a huge amount.”

Tele-Law scheme has been launched by the CSCs through which the people are being aware legal rights and responsibilities in the easiest manner as most people are not aware of it.

Seeing this unique scheme for upliftment of the marginal communities, I became the active part of this initiative since October, 2019. I am, honored to work as a VLE and had registered more than 100 cases under this scheme along with the help of PLV Khurshed Ali. I am happy to receive such respectful attitude from the people of my village and have become my source of income also.

On implementation of the scheme the people of my locality have become hopeful about getting justice and found right guiding path to fight for their rights via CSC Tele -Law process in the most convenient way.

Thank you, CSC for giving this opportunity to work along together and hope to achieve a greater level of justice at village level.

VLE Musta Fizur Islam  PLV Khurshed Ali

Tele-Law : From the desk of Panel Lawyer

“I was appointed as a Panel Lawyer on Tele-law project by CSC SPV on 5th of October 2017. Since then I have given legal counselling to more than ten thousand citizens. I want to convey gratitude to CSC SPV and Department of Justice for launching such a wonderful and essential scheme, the opportunity has given me a chance to connect with citizens from marginalized sections from rural location”. Adv. Abhijit Dekha

Tele-Law is an e-Interaction medium through which citizens get per-litigation advice at their doorsteps through CSCs present at panchayat. Through my journey in Tele-Law, I have met poor and marginalized and provided advice and guidance to citizens who were helpless and did not had any means to reach out to advocates to get legal advice. This service has provide employment to many Para Legal Volunteers (PLVs) who identify the cases from the communities and make door to door visit to identify citizen who need legal advice.

Presently a total of 200590 cases are registered under Tele-Law project, out of which 196749 cases have received advice from the Panel lawyers.
